Features and Specifications

Privacy Screens

BuzziScreen Mix is a free standing, sound absorbing privacy screen system available in three heights. It's comprised of a honeycomb cardboard core and covered with 100% recycled BuzziFelt. The screen style is selected based on the desired configuration. Screens are attached by zippers that are always 43.31" high. An extra layer of fabric can be specified over top of the BuzziFelt. A contrasting upholstery color can be selected in the same fabric grade. It is not recommended to combine a small panel next to a large panel. Screens should be installed in a zigzag line. A specified base is available for extra stability.

Additional Notes

BuzziScreen Mix features acoustic attenuation for high tones, as well as visual privacy.

When specifying BuzziScreen Mix, it is important to ensure that the screens have the pull tabs and teeth on the correct side, and also that the selected colors are specified on the correct side of the panel, as they are not reversible when contrasting fabric is specified. Refer to the following page for specification tips.

BuzziScreen Mix is GREENGUARD Gold certified.
